## THE INAUGURATION STAGE BEING SET

### Frankfort Arranging Details For Notable Event Next Tuesday.

Frankfort, Ky., Dec. 5.—Frankfort and Franklin county, probably the most stalwart in their Democracy in the State, judging by the last two State elections, as usual have laid aside partisanship in anticipation of the inauguration December 9.

Democrats and Republicans, without distinction, are working on plans to entertain the visitors and arrangements and details. The crowd from out of town for the most part will be Republicans, but to Frankfort it is a new Governor and a new local committee in charge, and that committee has only one idea and that is to show some former communities that they overlooked several things to make the event notable.

It is evident this early that the inauguration will excel in the one important feature dear to the heart of capital city residents—brass bands. There are going to be more bands than ever before. Frankfort people know from experience that they can't have too many bands in a parade, and numerous marching organizations have reported they are coming with their own music.

One reason for this is that the campaign on the Republican side was remarkably well organized. Morrow clubs sprang up all over the State, and the members, enthusiastic over the victory, are coming as clubs. This has an old-time flavor, and to give it a still more reminiscent cast, many of the clubs are adopting some distinctive insignia. They will carry canes or odd hats or parasols and banners and introduce novelties to attract attention. The Louisville delegation will bring an elephant.

The absence of State militia is compensated for by a detachment of infantry and artillery from the first Division, the commanding General regimental commanders and massed colors of the eight regiments, the University of Kentucky cadets, and the American Legion in uniforms. This contingent will add two hands to the army, a regimental band and the cadet band.

The parade, of course, is the big day-time feature, as the ball is the event at night, and Maj. Jackson Morris, grand marshal, is anxious to get in immediate touch with every organization coming, so that he can have his parade lineup complete in advance to prevent hitches that morning. The parade will form near the railroad station, march south on Ann street to Main street, west on Main street to Washington street, south on Washington street to Wapping street, east on Wapping street to St. Clair street over the bridge and up Capitol avenue to the front entrance of the Capitol. There on the first terrace of the Capitol steps the band will be erected and from that, facing Capitol avenue, Gov-elect Morrow will deliver his inaugural address.

**Ball in Capitol.**  
The ball will be held in the Capitol. That is where Gov. Stanley's inaugural ball was held and the occasion was so delightful and the scene so beautiful that the committee in charge was of one mind on the subject. It is probable, though, that the reception line will not stand in the state reception room. The State officers-elect with their wives receive during the evening of the ball, but the thousands intent on greeting members of the new administration four years ago jammed the corridor in front of the one door leading into the room for hours before they could percolate through, pass down the line in single file and wriggle through another series of doors, leading via a storeroom into the executive offices and thence back to the corridor.

It may be the line will stand in the rotunda by the Lincoln statue. At all events, profiting by experience, the line will be stationed where the crowd can conveniently reach it and as conveniently melt away.

days. Funeral services were conducted by Rev. R. D. Bennett, at Beulah church, Friday afternoon at 2 o'clock, burial at Beulah cemetery. Mrs. Webb was seventy years, eight months and twenty days old. She was the wife of the late T. A. Webb, who preceded her in death many years ago. ### I. P. BARNARD DISPOSES OF BEAVER DAM BANK STOCK

I. P. Barnard, of Louisville, reputed to be one of the heaviest holders of stock in the Beaver Dam Deposit Bank, and who was instrumental in the organization of the bank and likewise president since its organization, has disposed of his holdings and severed his connection with the institution.

Mr. Barnard is retiring from business care and duties, having been continuously active since early life, and probably the most successful financier who ever went forth from Ohio county's sons.

Not many banks in Kentucky are stronger than the Beaver Dam Deposit Bank in fact we know of none in rural sections carrying a larger percentage of surplus, which is one feature that adds strength to a banking institution.

### ADVOCATES JAZZ TO SOLVE GIRL PROBLEM

Boston, Dec. 1.—Jazz in church? Miss Mary E. Driscoll, New England chief of the women's section of the United States Interdepartmental Social Hygiene Board formerly connected with the Lancaster School for Girls, who knows well the whys and wherefores of the wayward girl, declares that the church is falling down in one of the biggest problems of the day.

"Delinquency is on the increase," says Miss Driscoll. "The young girls and boys go to movie houses and dance halls because there's more fun there. If the church provided good, live entertainment, with lots of snappy music and the latest songs, then the young people would be kept out of place of temptation."

### McDOUGALL—IGLEHEART.

Announcement has been received here, of the marriage of Mr. Royce Igleheart to Miss Gladys Lillian McDougall, of Detroit, Michigan. The marriage was solemnized in Dallas, Texas, where the bride, with her mother, had gone to spend the winter. Mr. Igleheart has a position with an Oil Company operating in Desdemonia, Tex., where he, with his bride, is now residing.

### BURLINGTON CITIZENS BUY WATER FOR BOOZE

Burlington, Vt., Dec. 1.—Hundreds of citizens are in a quandary not knowing whether to laugh or get mad. They have on their hands cases of bottles marked bonded Canadian Club whisky, and upon testing the contents of the bottles have found nothing more exhilarating than plain water. Water at \$8 a quart is a luxury, but that is what the persons who bought whisky from the bootleggers have paid. It was found after investigation that by means of some instrument the bottom of the bottle was removed, the whisky poured out and water substituted. The glass was then refilled and the contents sold to the owners as bonded Canadian Club whisky. There is but one consolation. Cider is still selling at 35c a gallon.

## UNION LEADERS ARE FACING JAIL TERMS

### Warrants Are Sworn Out For Eighty-four Mine Chiefs.

Special United States District Attorney, Indianapolis, files charges against eighty-four miners' union chiefs for criminal contempt of court and conspiracy to keep the strike in force in spite of Judge Anderson's injunction.

All miners who knew of the injunction, the unions strike cancellation order, and who refuse to work, are liable to prosecution, the Government holds.

Southeast Kentucky operators believe the walkout soon will end.

Rail men assist striking miners in State-operated Kansas mines, refusing to haul "volunteers."

Operators meeting, in Washington agree to submit a wage offer slightly better than a 14 per cent increase, for Garfield's approval today.

Agents of U. S. Lose Patience.

Indianapolis, Dec. 3.—The United States Government today again invoked powers of Federal Courts in an effort to end the strike of 400,000 bituminous coal miners of the country.

Information charging criminal contempt of court was filed in United States District Court here against eighty-four international and district officers of the United Mine Workers of America named in the court injunction issued immediately after the strike was called, and capias requiring their appearance to answer the charges were issued late today. It is alleged that all of the officers have conspired to keep the strike in force and thus have violated terms of the injunction.

Acting President, John L. Lewis, Secretary-Treasurer William Green, Percy Tetlow, statistician, and Ellis Seales, editor of the United Mine Workers Journal, the only officials of the organization in Indianapolis, were notified of the action and agreed to report in court tomorrow to furnish bond, fixed at \$10,000 by Federal Judge A. B. Anderson.

## SQUIRE DAUGHERTY FOUND NOT GUILTY

In the case of the Commonwealth of Kentucky, vs W. C. Daugherty, on a charge of detaining a woman unlawfully etc., which action was tried in Circuit Court this week, the verdict of the Jury was, not guilty.

The case attracted quite a bit of attention, owing to the fact that the defendant was a member of the board of magistrates, representing the Rosine district in the Ohio County Fiscal Court. The case has been in court for some time and was hard fought, additional counsel having been employed to assist the Commonwealth and County Attorneys in prosecuting the case. The Jury trying the case was out less than ten minutes, showing, that in their minds according to the testimony introduced, there was little if any doubt as to the innocence of the accused.

### CHRISTMAS BOMBS WARNED OF IN N. Y.

New York—Dec. 1.—New York's prominent citizens were officially warned by the district attorney's office against the possibility of bomb-bearing Christmas packages. Acting on advice received recently from the Philadelphia police that radical plans had been discovered for repetition on a wholesale scale during the holidays of the bomb mailing plot of last May Day, the district attorney advises caution in handling all parcels received between now and New Year's Day.

The citizens were advised to carry all suspicious looking bundles received by mail, express "or otherwise" to the fire department's bureau of combustibles or the police department's bomb squad for examination. The May Day outrages were cited as "examples of the extent to which desperate-minded radicals will go in order to inflict punishment upon the representatives of law and order, whose duty it has been to suppress the advocates of 'direct action.'"

### SUGAR SHORTAGE TO CONTINUE FOR YEAR

New York, N. Y., Dec. 1.—The sugar famine predicted last September is here. It will continue with increasing severity until well toward the end of January.

The day of cheap sugar is drawing near to an end and the day of plentiful sugar is already past. Sugar will continue to be scarce all through next year, and the price will advance several cents a pound. There is no restoration of normal sugar conditions in sight in the United States before 1921.

This does not mean, however, that the present famine conditions will continue throughout next year. By the

middle of next February it should be possible to purchase sugar comparatively freely, but indications are that it will be necessary to exercise some control of the distribution and sale of sugar throughout the year if a repetition of this year's acute shortage is to be avoided.

The total consumption of sugar in the United States this year up to Nov. 1st was 3,528,000 long tons, against 2,885,000 for the same period in 1918, an increase of 643,000 long tons.

The exports for October were 57,776 long tons against 29,537 long tons the same month in 1918. The refiner's reported shipments to the Royal Commission of 51,335 long tons last month. This sugar, however, was contracted for the Royal Commission early this year, and was not drawn from the American reserves.

### BIG RUSH IN LOCAL TOBACCO DELIVERIES

The Burns Tobacco House at this place has had an immense rush in deliveries of the weed during this week. Wagons have been lined up for the distance of a block, two, three and four deep since early Monday up to noon yesterday, when conditions began to ease up a bit.

Approximately 250,000 pounds have been delivered this week and farmers have been well satisfied with weights, deliveries and prices generally. We could not obtain anything like a general average of prices paid, owing to the large amount received and lack of time to make comparisons.

### ANNA KATHERINE MILLIGAN.

## BIG INDUSTRIAL SHUTDOWN EXPECTED

### Factories Will Be Allowed To Run Until The Coal Stocks Exhausted.

Washington, Dec. 3.—War-time restrictions on the consumption of coal were ordered into effect Monday for the period of the present strike emergency.

Fuel Administrator Garfield, acting in conjunction with the Railroad Administration, announced that only the industries included in the first five classes of the priority list established during the war would be furnished coal and that public utilities would be asked to discontinue furnishing power, heat and light to non-essential industries.

The industries to which coal will be furnished will be railroads, coastwise and inland shipping, army and navy and other Government departments. State and county departments, and institutions; public utilities, including newspapers, and retail dealers supplying household consumers.

State and local authorities, Dr. Garfield said, will be asked to cooperate, though the rationing of coal will be done through the regional coal committees set up by the Railroad Administration.

Railroad Administration officials conceded that the application of the order would mean an industrial shutdown of considerable magnitude, but declined to undertake a definite estimate. Industrial establishments operating from their own power plants, it was said, probably would have to stop when their present coal supply became exhausted.

Industries operating on power supplied by public utility companies may continue operation unless the management of the public utility companies supplying them and the local authorities rule that they are non-essential. For the present the Railroad Administration will not attempt to lay down a rule as to what is an essential industry.

### Garfield's Statement.

"It is necessary that coal shall be used only for essential purposes," said Dr. Garfield's statement, explaining the Government's action. "Public utilities consuming coal should discontinue to furnish power, heat and light to non-essential industries and should only consume sufficient coal to produce enough light, power and heat to meet the actual urgent needs of the people. Advertising signs and displays of various kinds necessitating the use of coal should be curtailed and no coal should be distributed for such purposes."

"Pursuant to this policy I have requested the Railroad Administration in the distribution of coal now or hereafter in its possession to limit distribution to these essential and urgent uses. As far as practicable until the conditions warrant a change the distribution of coal will be limited to the first five classes of the priority list."

"Retail dealers who distribute coal for household requirements, heating hotels, buildings, hospitals, etc., should take every precaution to see that coal is delivered only where it is absolutely required and then only in such limited quantities that the supply may be distributed widely and prevent suffering."

The State and other local authorities can materially aid in inspecting and supervising such distribution by retail dealers and the United States Government will be glad to leave the supervision and control of such distribution by retail dealers entirely to any State, county or municipality which may make provision therefor. The distribution to the retail dealers must necessarily be administered by the Railroad Administration in pursuance of the orders already made by the United States Fuel Administration in carrying out the priorities which have been prescribed under the Lever Act."

### YOUNG—BRATCHER.

Anderson Bratcher and Virgie Young, young people of Horse Branch, came to town Wednesday morning, procured marriage license and were married in the County Judge's office by Judge Mack Cook.
